Beneficiary/Village Contact Details - Address : Ramarao Chintha Vellalacheruvu Post City , State Zip : Santhamaguluru Mandal, Prakasam Dt, AP 523302 Phone : +91 9502866722 Email : prempamidi@gmail.com	
Need for the Project: Vallelacheruvu village is located in Prakasam district. Over a period of time village has expanded beyond the railway track next to our village, most of these families are economically backward family's build their homes on partially government land and partially donated private land donated by villagers in a total there are approximately 700 people living in this part of the village. Even though village has an existing water plant which supplies water to most of the village, panchayat was not able to extend the beyond the railway track due to restrictions from railway department. Currently these people have to cross the track and get their water and now they are also extending the track to double line. Proposal is to dig a new bore well for these families and build a water purifying plant. Panchayat will take care of the new bore well and ongoing maintenance once the plant is established.	
Project Requirement:	

The tasks to be completed are:

1. Water Analysis
2. Equipment needed to purify drinking water
3. Installation of plant
4. Vellalacheruvu villager panchayat will cover the operating costs such as bore well, electricity bills and replacement filters.

Project Contributors in Village:

Premachand Pamidi

Estimated Project Cost:

Rs. 300,000

Timeline for Project Execution:

To be completed by 31st December 2016

Beneficiaries of the project:

Presently 700 economically backward people, probably more in future generations.

Proposed Maintenance Plan:

N/A

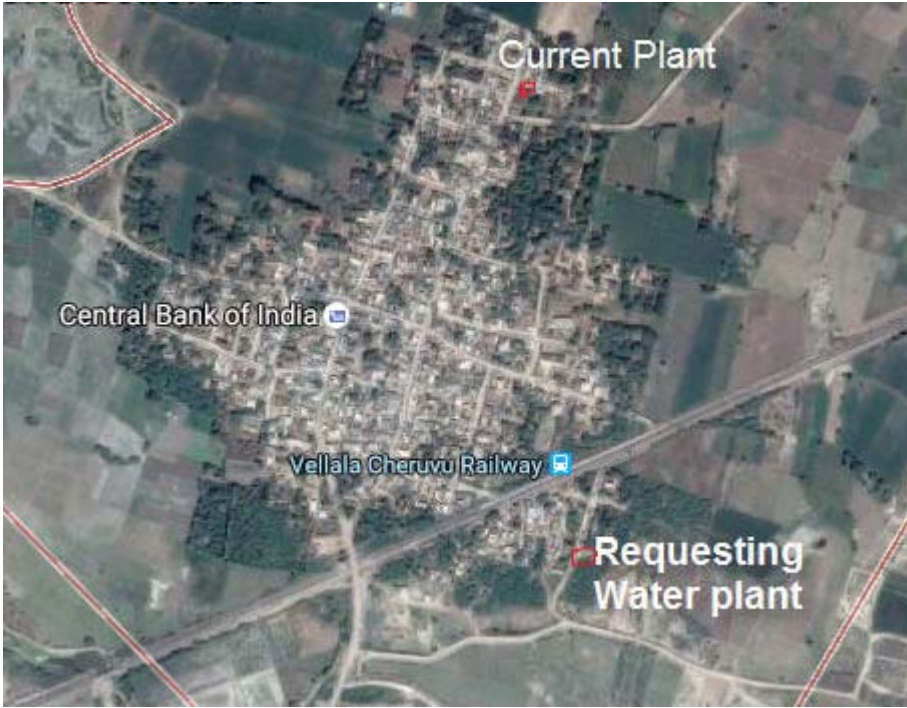

Local Contributors for the project:

Premchand Pamidi from same Village came forward to support 50% of project cost.

Vellalacheruvu villager panchayat will cover the operating costs such as bore well, electricity bills and replacement filters.

Proposed Project Execution methodology:

Any Additional Information :

I/We hereby declare that the above statement is true to the best of my knowledge and belief, and understand that if any incorrect information may subject to project suspension/implementation.
